EDUCATION

PVG's College of Engineering and Technology, Pune (SPPU) <i>Bachelor of Engineering in Information Technology</i>	SGPA: 9.00 2024 – Present
Government Polytechnic Amravati (MSBTE) <i>Diploma in Computer Engineering</i>	Percentage: 85.58% 2020 – 2024
M. B. Burungale Vidyalaya, Shegaon <i>SSC (10th)</i>	Percentage: 93.60% 2020

EXPERIENCE

Web Development Intern <i>Bluestocks Fintech</i>	Sept 2024 – Oct 2024 <i>Remote</i>
– Developed and enhanced responsive web interfaces for fintech applications using React.js and modern CSS frameworks. – Integrated REST APIs to display real-time financial data and improve user experience. – Collaborated with backend and product teams to implement new features and resolve production issues. – Followed best practices for clean code, component reusability, and version control using Git.	

TECHNICAL SKILLS

Programming Languages: C++, Java, Python, JavaScript, Shell Scripting

Web Development: HTML, CSS, React.js, Node.js, Express.js

Databases: MySQL, MongoDB, Firebase

Tools: Git, GitHub, VS Code, WordPress

Concepts: OOP, Data Structures and Algorithms, DBMS, Operating Systems

CERTIFICATION COURSES

Full Stack Web Application Development: Demystified
– Completed a 50-hour certification course conducted by SCTR's Pune Institute of Computer Technology (PICT).

Java – Apna College
– Completed a 3-month course covering Java programming, problem solving, and data structures & algorithms.

PROJECTS

Task Management Website – TaskMaster | *GitHub: aradhanahingane/task-management*
– Developed a task management platform where users can add, edit, and delete tasks.
– Implemented a Kanban board UI for clear workflow visualization.
– Added filtering based on priority and due dates to enhance task organization and productivity.

Course Selling Application | *GitHub: aradhanahingane/full-stack-course-selling*
– Developed a responsive course platform allowing users to browse, review, and purchase courses.
– Built a content management system to streamline course discovery and transaction handling.

Crop Disease Detection System
– Built a plant disease detection system using CNN and Flask for early diagnosis.
– Implemented image preprocessing and multi-stage classification using TensorFlow and Keras.
– Stack: Python, Flask, TensorFlow, Keras, OpenCV, HTML, CSS, JavaScript.

SOFT SKILLS

Problem Solving — Teamwork — Communication — Time Management — Quick Learner
